OSHKOSH DEFENSE

MRAP ALL-TERRAIN VEHICLE

M-ATV | TACTICAL AMBULANCE VEHICLE

Mobile. Reliable. Vital.
Oshkosh Defense® M-ATV
Tactical Ambulance Vehicle.

With the Oshkosh Defense® M-ATV tactical ambulance vehicle, medics can traverse over any and all obstacles to reach military members in need of medical attention so they can be extracted from the field.

The M-ATV ambulance meets the same key performance points in mobility and reliability as the base M-ATV and even surpasses it in protection and survivability. As a fully functional ambulance, mounting provisions allow for a full suite of medical equipment and there's also ample room to care for injured personnel.

Configured to expedite litter load time, the M-ATV ambulance also incorporates combat-proven components such as the TAK-4® independent suspension system and an advanced armor system to maximize mobility and protection – so medics can get to personnel on the field, and get them out again.

M-ATV | TACTICAL AMBULANCE VEHICLE | MRAP ALL-TERRAIN VEHICLE
