

ALPHA

MINE RESISTANT AMBUSH PROTECTED VEHICLE

Increase survivability. Reduce casualties. With the Alpha Mine Resistant Ambush Protected (MRAP) Category 1 vehicle. The Alpha is a 13-ton 4x4 vehicle that offers superior blast and ballistic protection. The v-shape hull, with PVI's advanced armoring solutions, is specifically designed to exceed required protection levels with minimal impact to payload and performance capabilities.

The Alpha vehicle is produced utilizing Oshkosh Truck's automotive engineering expertise, design capabilities and production capacity coupled with PVI's protection experience and advanced armor technology. With Oshkosh Truck and the Alpha MRAP, you get performance, reliability, and quality standards to meet all tactical operations requirements.

The Alpha offers a seating capacity for eight personnel and provides superior protection for Urban Combat Operations.

PROTECTION FROM ALL SIDES.
